

Flag 1 – Install Flutter SDK

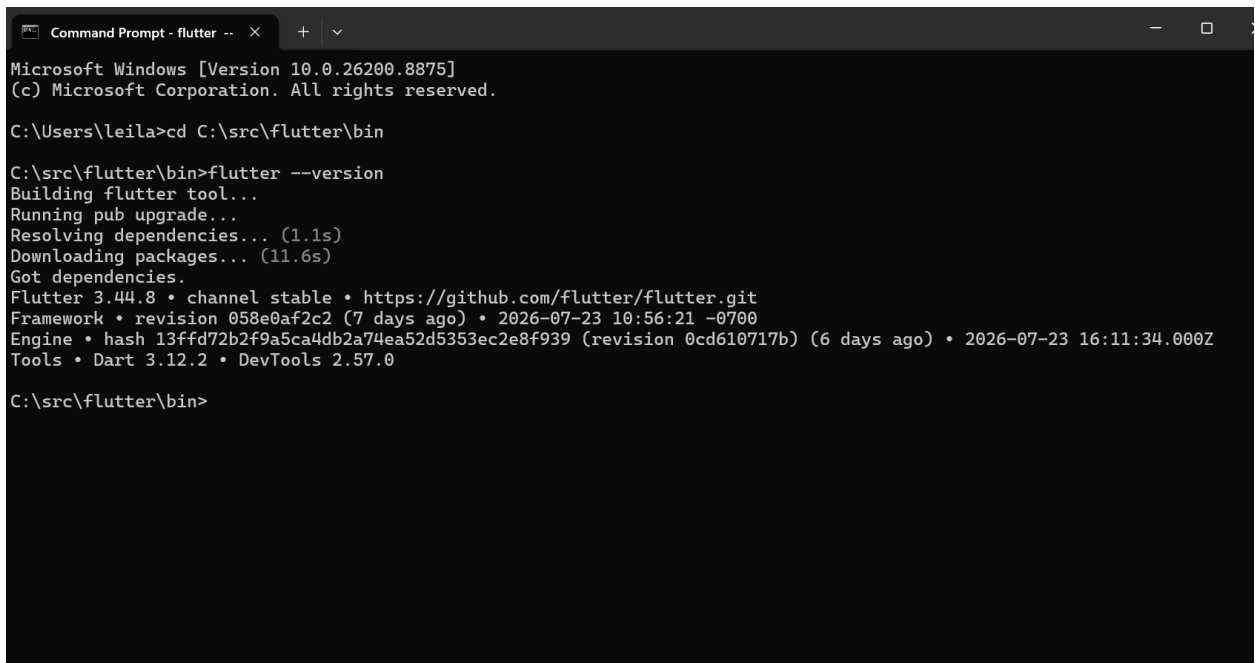

Objective: Install the Flutter SDK.

Verify:

```
flutter --version
```

Screenshot:

- The results of the command

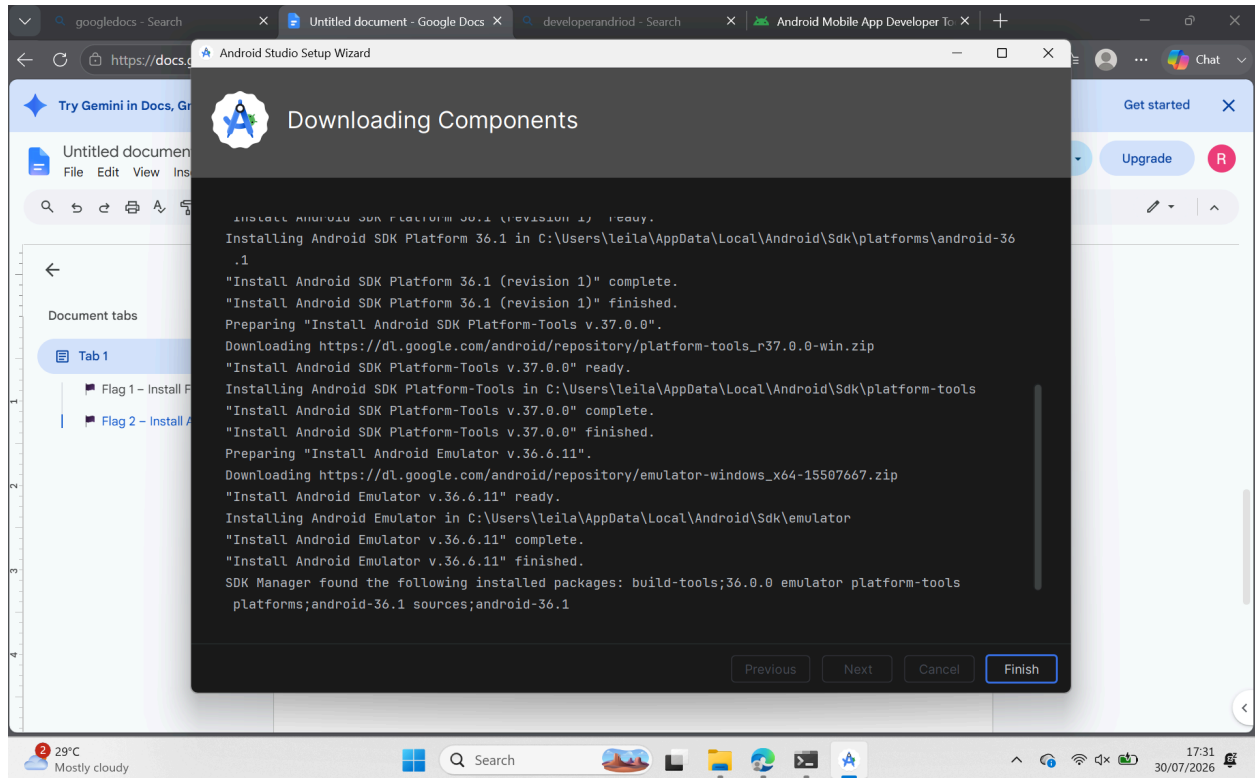

```
Command Prompt - flutter -- ...  
Microsoft Windows [Version 10.0.26200.8875]  
(c) Microsoft Corporation. All rights reserved.  
  
C:\Users\leila>cd C:\src\flutter\bin  
  
C:\src\flutter\bin>flutter --version  
Building flutter tool...  
Running pub upgrade...  
Resolving dependencies... (1.1s)  
Downloading packages... (11.6s)  
Got dependencies.  
Flutter 3.44.8 • channel stable • https://github.com/flutter/flutter.git  
Framework • revision 058e0af2c2 (7 days ago) • 2026-07-23 10:56:21 -0700  
Engine • hash 13ffd72b2f9a5ca4db2a74ea52d5353ec2e8f939 (revision 0cd610717b) (6 days ago) • 2026-07-23 16:11:34.000Z  
Tools • Dart 3.12.2 • DevTools 2.57.0

```

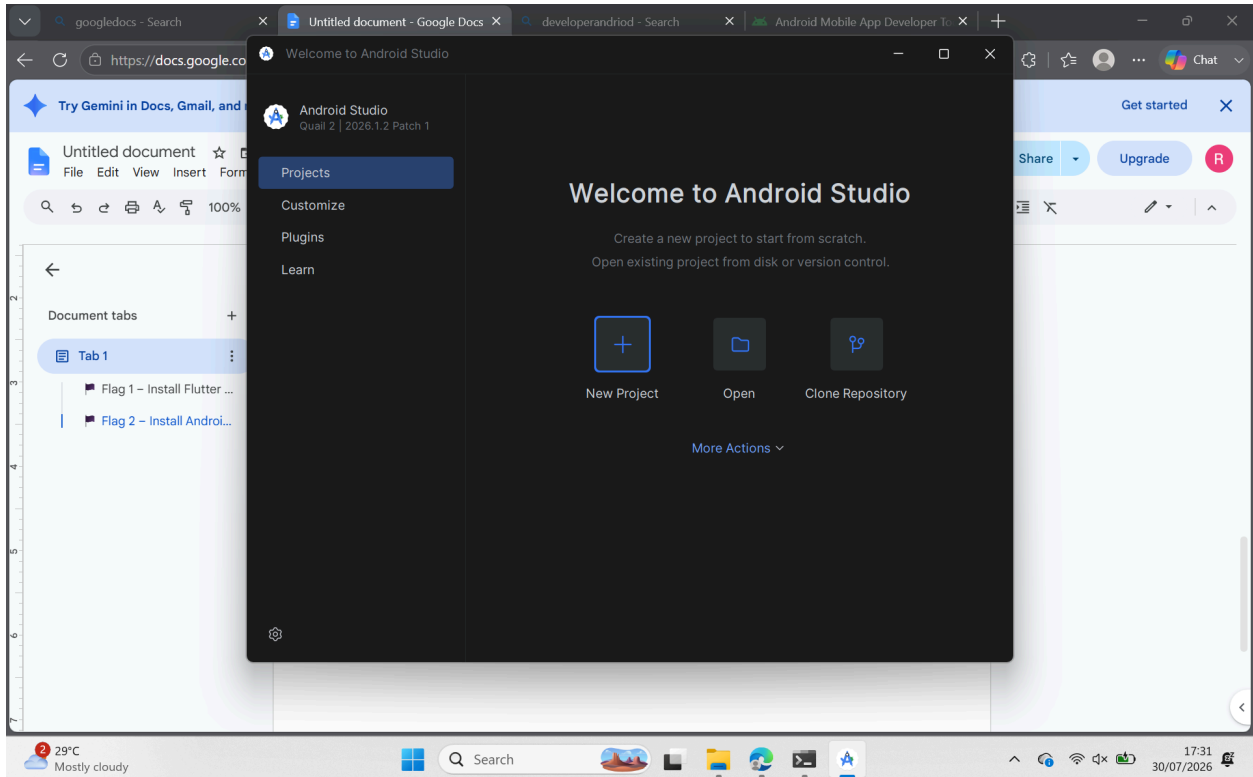

🚩 Flag 2 – Install Android Studio

Objective: Install Android Studio.

Screenshot:

- Android Studio installed
- SDK Manager opened (or Welcome screen)

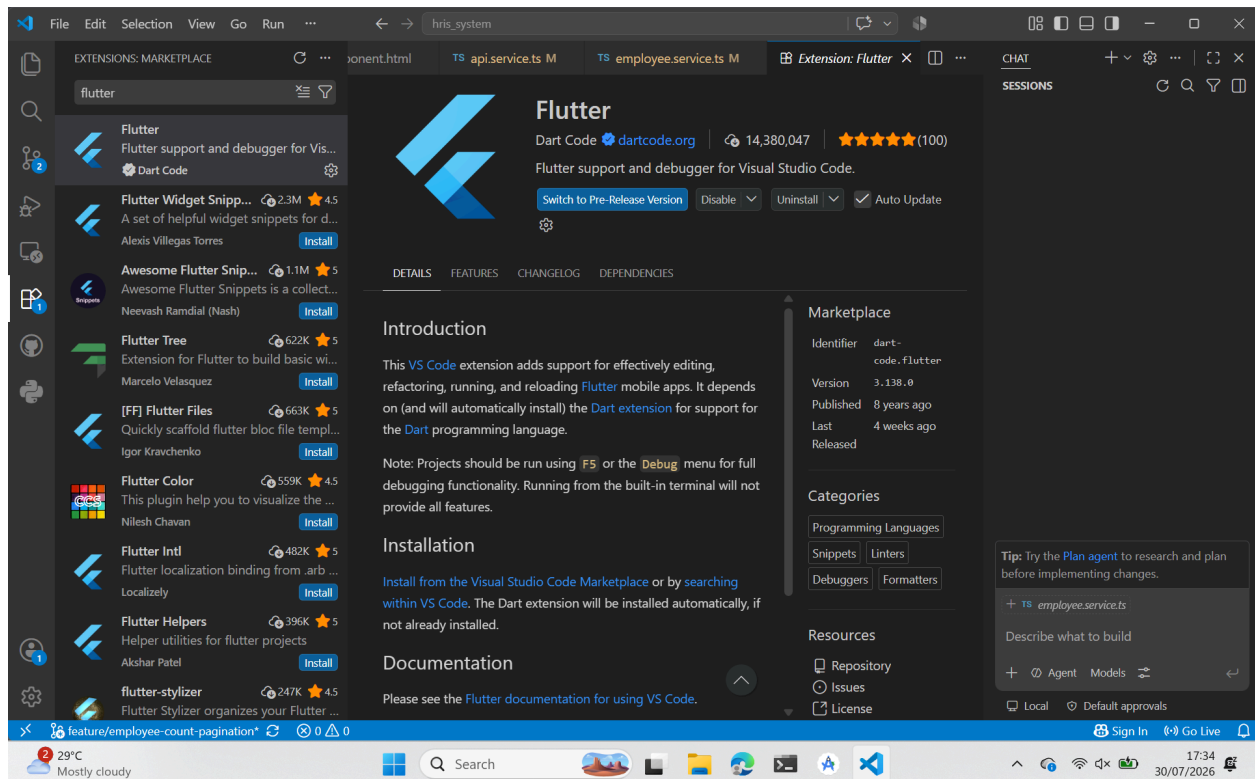

🚩 Flag 3 – Install VS Code & Flutter Extension

Objective: Install VS Code and the Flutter (which also installs Dart) extension.

Screenshot:

- Flutter extension installed
- Dart extension installed (or shown as installed)

Flag 4 – Run Flutter Doctor

Objective: Check whether everything is configured correctly.

Run:

flutter doctor

Screenshot:

- flutter doctor results

```
Windows PowerShell
PS C:\Users\leila> flutter doctor
Doctor summary (to see all details, run flutter doctor -v):
[✓] Flutter (Channel stable, 3.44.8, on Microsoft Windows [Version 10.0.26200.8875], locale en-ID)
[✓] Windows Version (11 Home Single Language 64-bit, 25H2, 2009)
[✓] Android toolchain - develop for Android devices (Android SDK version 36.0.0)
[✗] Chrome - develop for the web (Cannot find Chrome executable at .\Google\Chrome\Application\chrome.exe)
    ! Cannot find Chrome. Try setting CHROME_EXECUTABLE to a Chrome executable.
[✓] Visual Studio - develop Windows apps (Visual Studio Community 2022 17.14.27 (February 2026))
[✓] Connected device (2 available)
[✓] Network resources

! Doctor found issues in 1 category.
PS C:\Users\leila> Test-Path "C:\Program Files\Google\Chrome\Application\chrome.exe"
False
PS C:\Users\leila> Test-Path "C:\Program Files (x86)\Google\Chrome\Application\chrome.exe"
False
PS C:\Users\leila> Test-Path "$env:LOCALAPPDATA\Google\Chrome\Application\chrome.exe"
False
PS C:\Users\leila> flutter doctor
Doctor summary (to see all details, run flutter doctor -v):
[✓] Flutter (Channel stable, 3.44.8, on Microsoft Windows [Version 10.0.26200.8875], locale en-ID)

🚩 Flag 5 – Build Your Virtual Device

Objective: Create your first Android Emulator (AVD).

Screenshot:

- Device Manager
- Your newly created virtual device
- Emulator successfully booted

🚩 Flag 6 – Forge Your Project

Objective: Create your first Flutter project.

Run:

```
flutter create my_first_flutter_app
```

Screenshot:

- Successful creation of project

```
Command Prompt - flutter ci x + v
Microsoft Windows [Version 10.0.26200.8875]
(c) Microsoft Corporation. All rights reserved.

C:\Users\leila>cd Documents

C:\Users\leila\Documents>flutter create my_first_flutter_app
Creating project my_first_flutter_app...
Resolving dependencies in 'my_first_flutter_app'... (1.1s)
Downloading packages...
Got dependencies in 'my_first_flutter_app'.
Wrote 131 files.

All done!
You can find general documentation for Flutter at: https://docs.flutter.dev/
Detailed API documentation is available at: https://api.flutter.dev/
If you prefer video documentation, consider: https://www.youtube.com/c/flutterdev

In order to run your application, type:

$ cd my_first_flutter_app
$ flutter run

Your application code is in my_first_flutter_app\lib\main.dart.

C:\Users\leila\Documents>cd my_first_flutter_app

C:\Users\leila\Documents\my_first_flutter_app>ls
'ls' is not recognized as an internal or external command,
operable program or batch file.

C:\Users\leila\Documents\my_first_flutter_app>dir
Volume in drive C is Acer
Volume Serial Number is 7289-D4CA

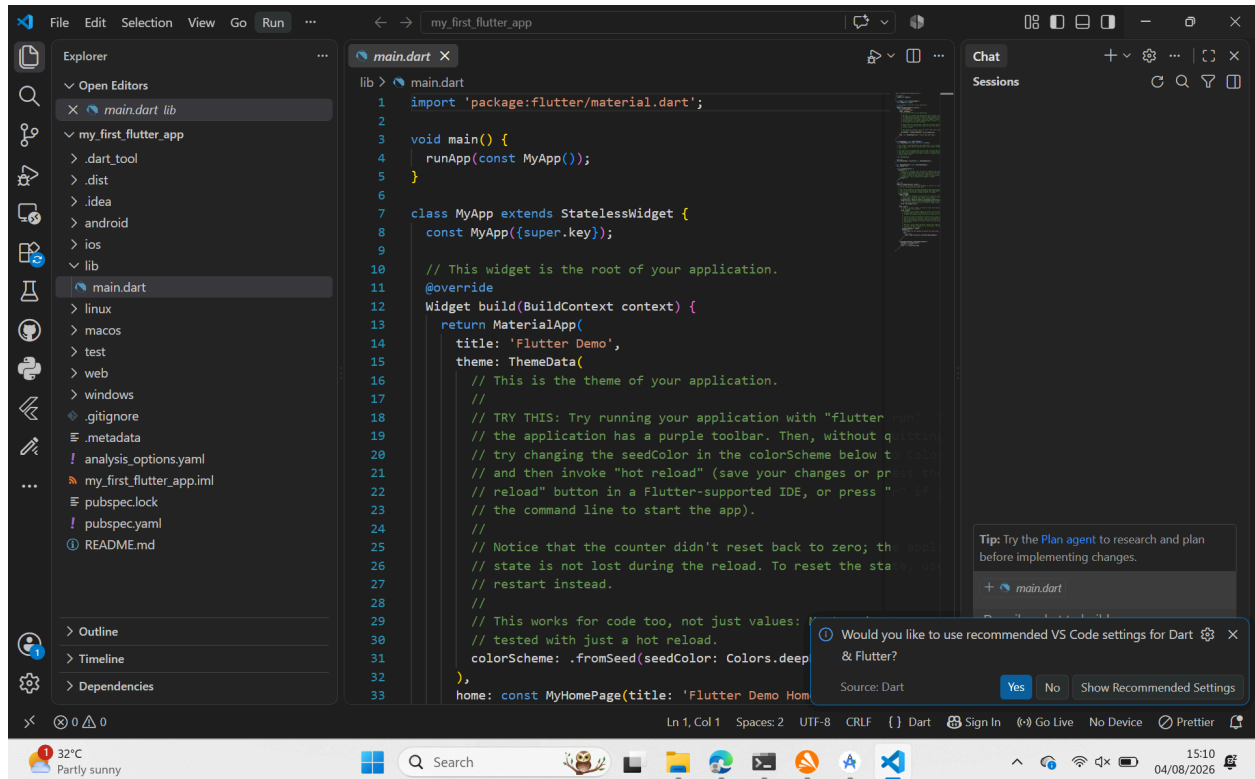

Directory of C:\Users\leila\Documents\my_first_flutter_app
```

Flag 7 – Unlock the Workspace

Objective: Open the project in VS Code.

Screenshot:

- Your project opened in VS Code

🚩 Flag 8 – Launch

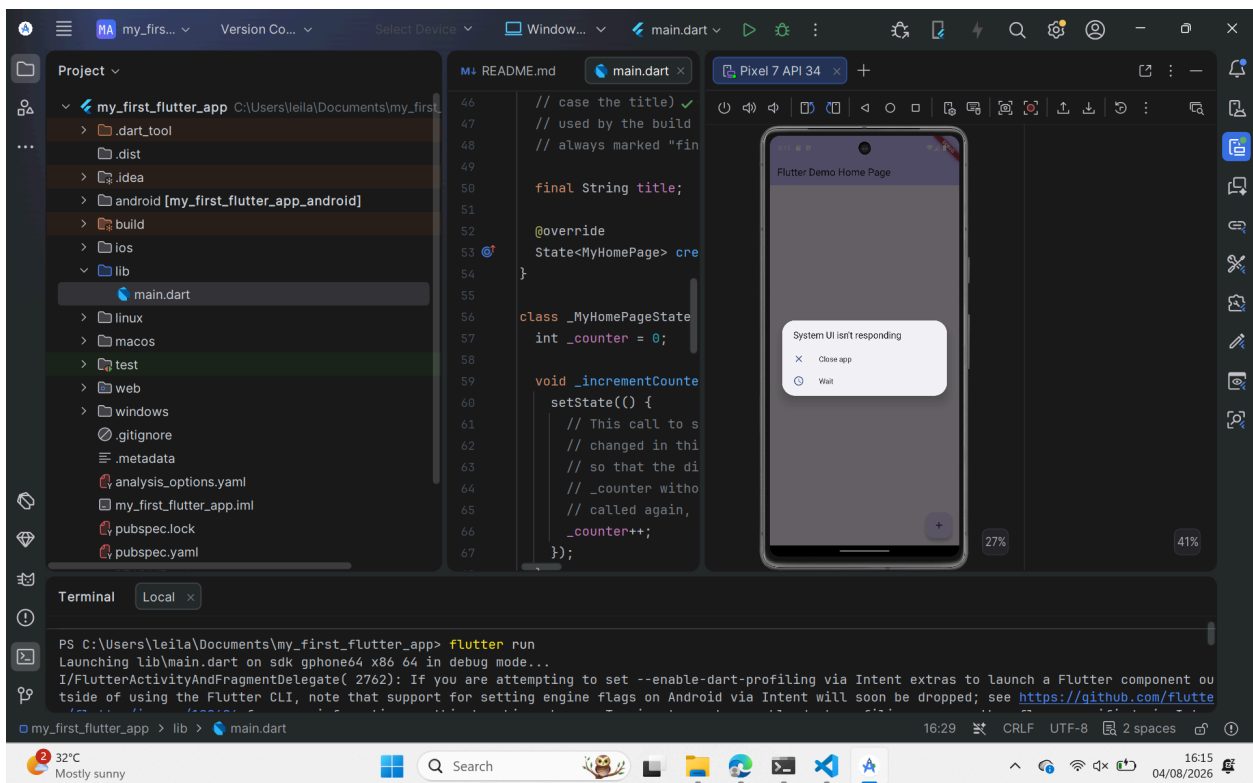

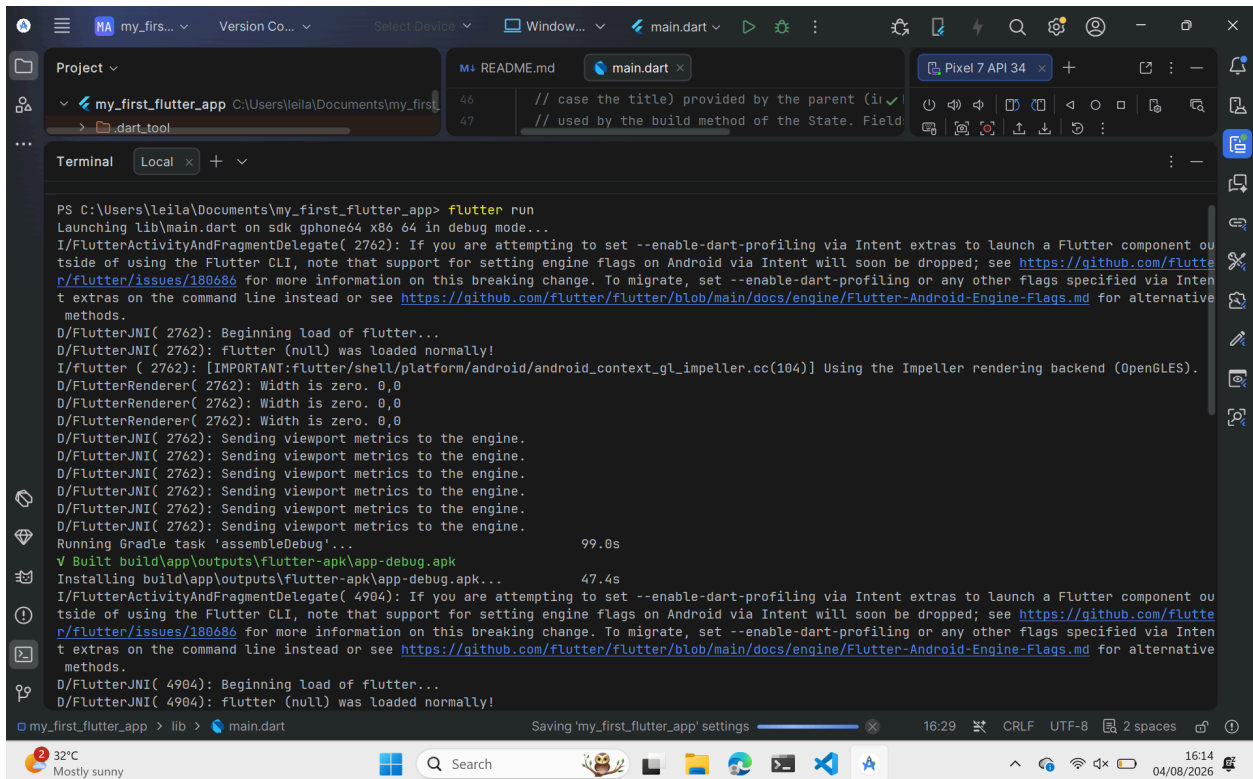

Objective: Run your Flutter application.

Run:

flutter run

Screenshot:

- Terminal
- Emulator running
- Default Flutter app

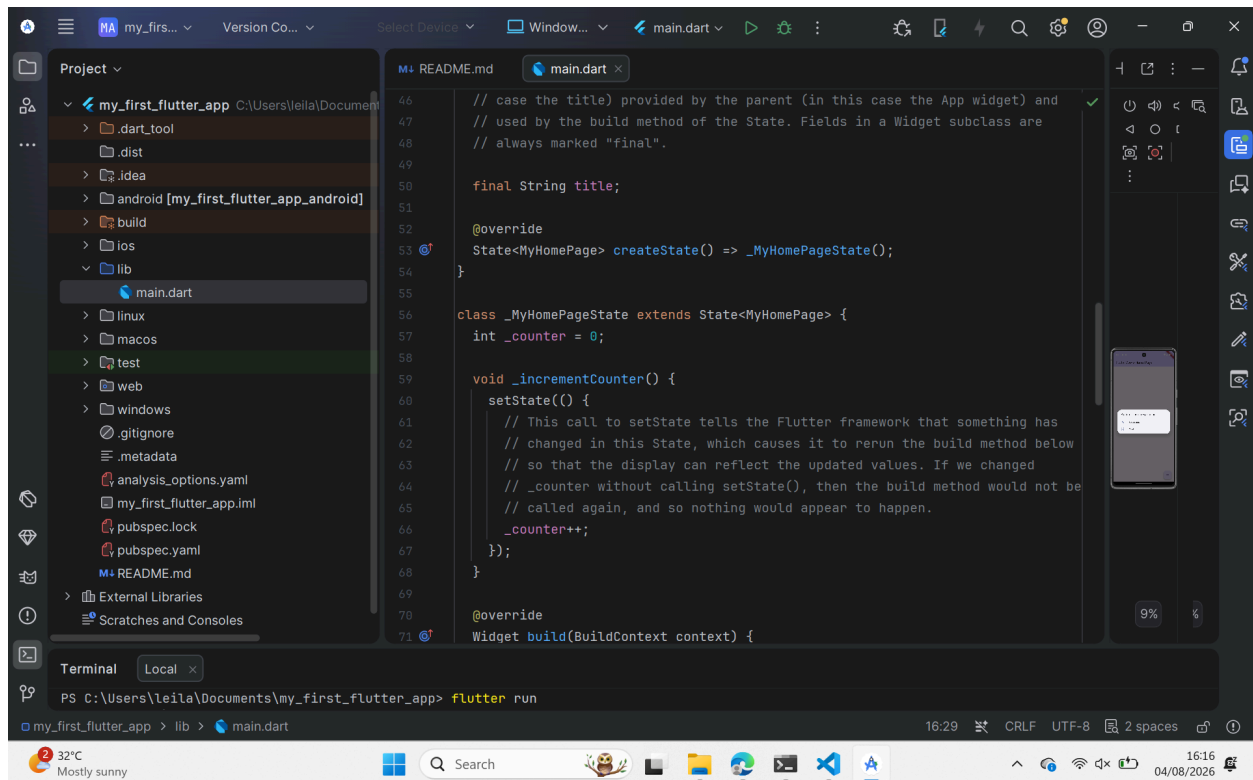

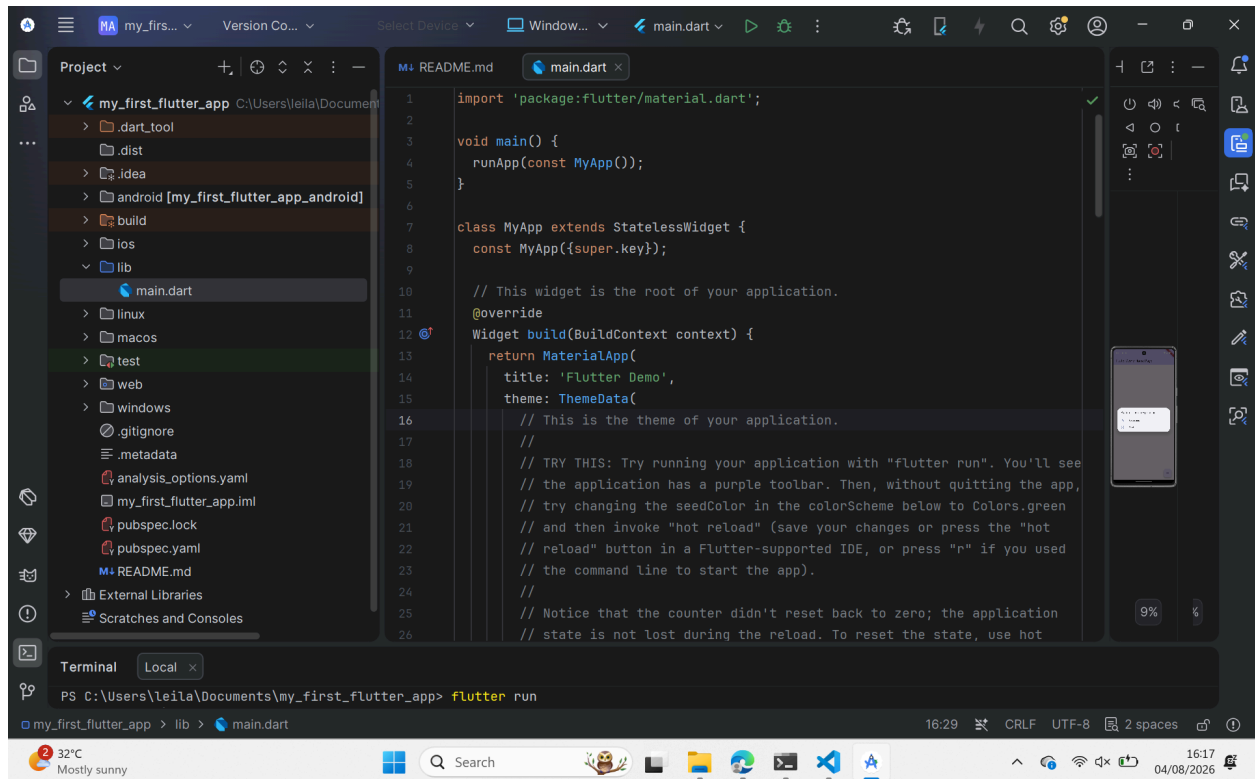

🚩 Flag 9 – Find the Entry Point

Figure out where the default Flutter page comes from.

Screenshot:

- The location of the file where the default page is from (the one showing on the emulator)

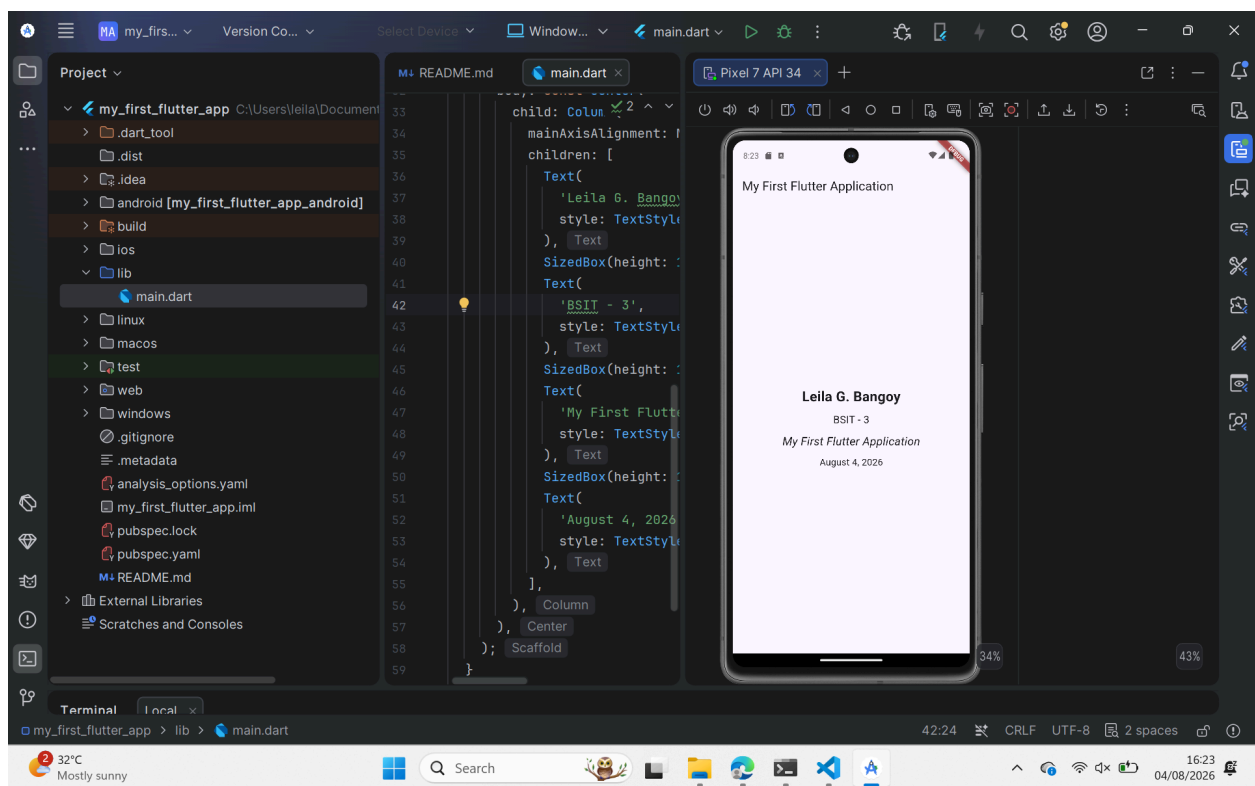

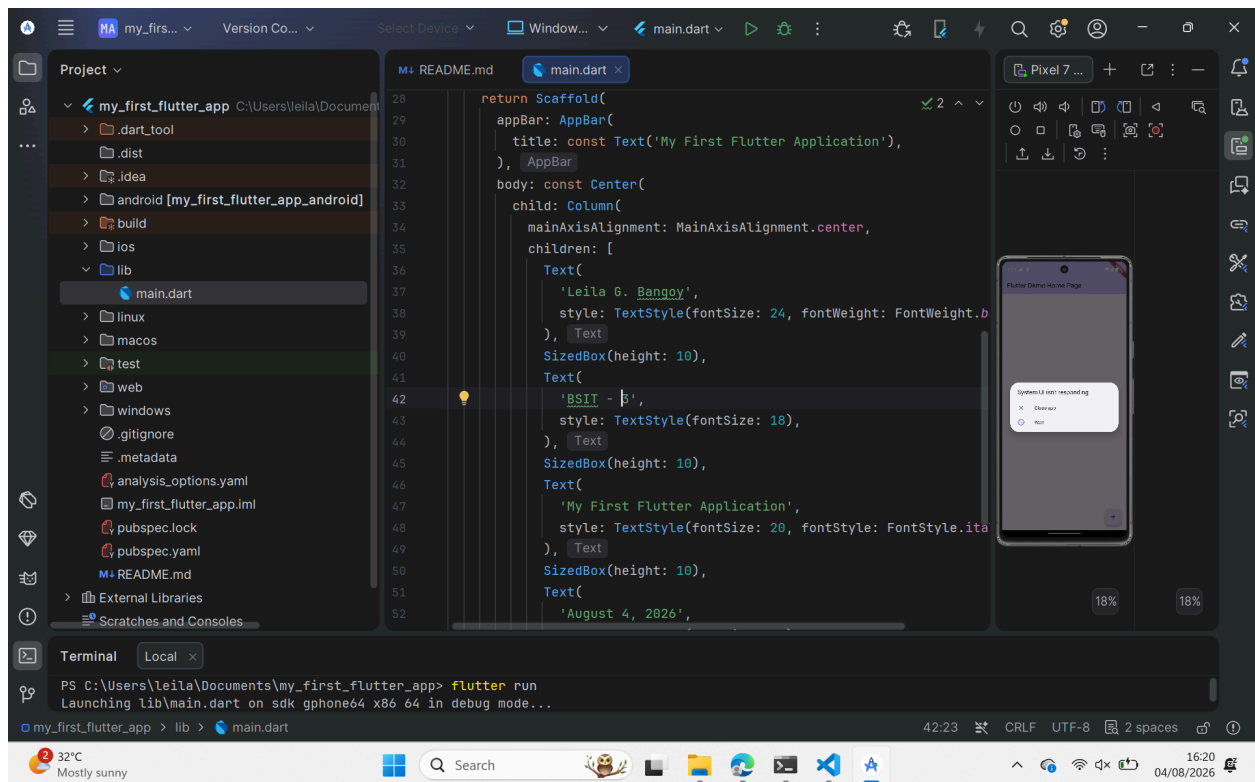

🚩 Flag 10 – Claim Your App

Replace the default screen with:

- Full Name
- Course & Section
- "My First Flutter Application"
- Today's Date

Screenshot:

- Your updated content of the code
- The updated UI

🚩 Flag 11 – Personalize It

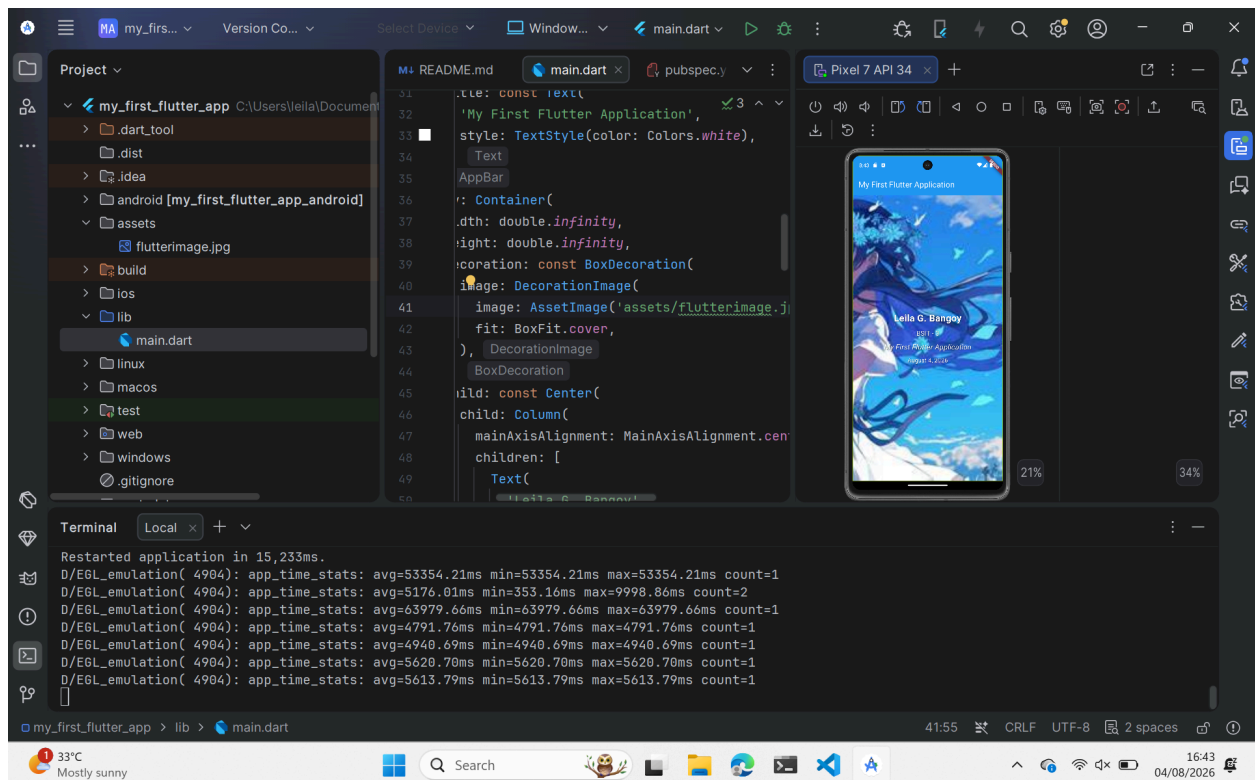

Research and implement at least **three** visual changes.

Examples:

- Change the background colour.
- Change the text colour.
- Centre the content.
- Increase font size.
- Add a border or rounded card.
- Change the font.
- Add an emoji or icon.

Screenshot:

- The code changed for personalizing
- The updated UI

🚩 Flag 12 – Add an Image

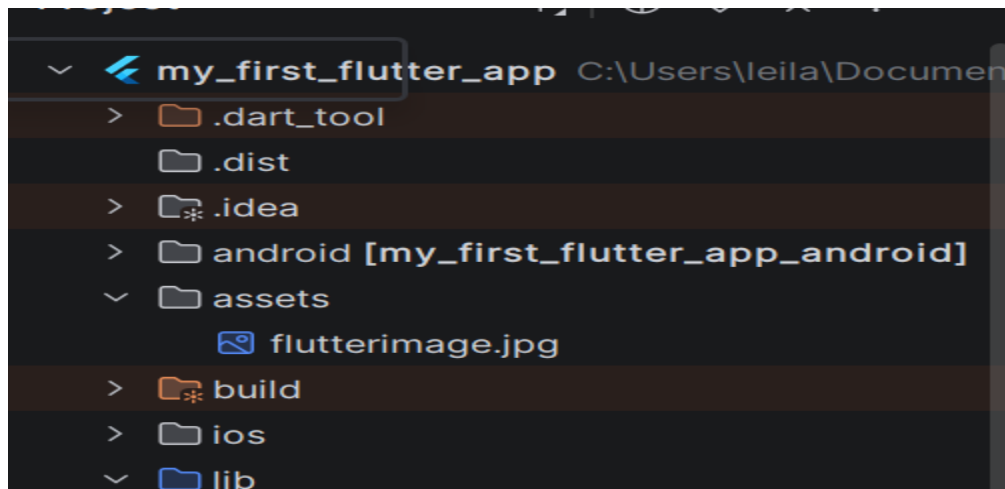

Research how to:

- Create an **assets** folder
- Register assets
- Display an image

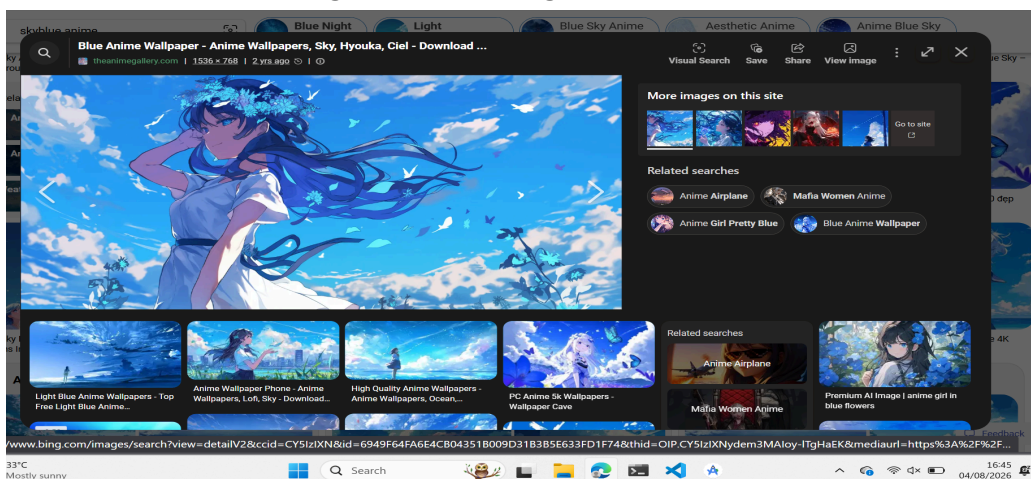

Screenshot:

- The steps it took to add an image
- The updated UI

First i created a assets folder

Then download a background and drag to the assets folder

Then in pubspec.yaml connect the assets folder assets/flutterimage.jpg and in the lib/main.dart image: AssetImage('assets/flutterimage.jpg', then reload
